

# How to get a Google ReCaptcha Key

## How to get a Google ReCaptcha Key

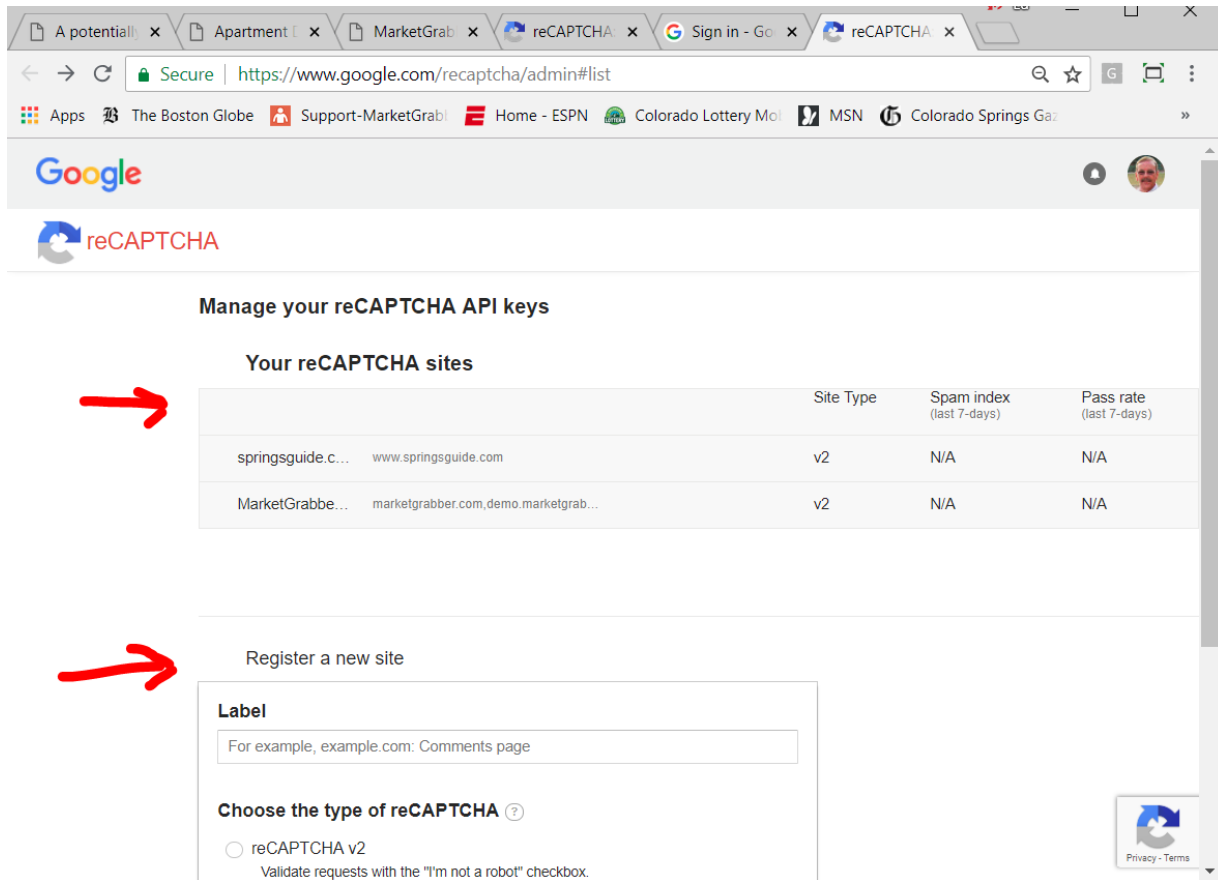

Login to your Google.com account. If you do not yet have an account with Google, set that up first. Click on this link:

<https://www.google.com/recaptcha/admin#list>

If you are not logged in, Google will ask that you login to your Google Account

## ReCaptcha Management Screens

The first screen you will see looks like:

If you have any existing reCaptcha keys they appear in the "Your reCAPTCHA sites" section illustrated above.

To use reCaptcha on a new site, go to the "Register a new site" section of the form. Here is an illustration of how to fill that out:

# How to get a Google ReCaptcha Key

Register a new site

The screenshot shows the 'Register a new site' form with the following fields and options:

- Label:** A text input field containing 'Your-SiteName-Here'.
- Choose the type of reCAPTCHA:** Three radio button options: 'reCAPTCHA v2' (selected), 'Invisible reCAPTCHA', and 'reCAPTCHA Android'.
- Domains:** A text input field containing 'enteryourdomainnamehere.com'.
- Accept the reCAPTCHA Terms of Service:** A checked checkbox.
- Send alerts to owners:** A checked checkbox.
- Register:** A blue button at the bottom right.

Red arrows point to the Label field, the reCAPTCHA v2 radio button, the Domains field, the Terms of Service checkbox, and the Send alerts to owners checkbox.

Enter your data as follows:

**Label** - Text name for your site - no spaces allowed - do not enter the domain name here.

**Type of reCaptcha** - choose reCAPTCHA v2.

**Domains** - enter your domain name (without the www). Note you can enter additional domain names one per line if you want to use the same setup for multiple domain names (optional).

**Terms** - accept the terms of service

**Send Alerts** - check this.

**Submit the form** by pressing the Register button.

A results page will appear:

# How to get a Google ReCaptcha Key

The screenshot shows the Google reCAPTCHA console interface. At the top, there is a navigation bar with the reCAPTCHA logo, a back button, the site name 'Your-SiteName-Here', and a placeholder '(enteryourdomainnamehere....)'. Below this, there are three utility buttons: a bar chart icon, an information icon, and a settings gear icon. The main content area is divided into two sections. The first section, titled 'Analytics', includes a download icon and five metrics: 'Requests passed & failed', 'Sessions completed', 'Spam index', and 'Average Response Time (seconds)'. Each metric has a note stating 'This site's traffic is below the minimum required to display charts.' The second section, titled 'Adding reCAPTCHA to your site', contains a 'Keys' dropdown menu. A red arrow points to this menu. Below the menu, there are two columns: 'Site key' and 'Secret key'. Each column has a brief instruction and a text box containing a long alphanumeric key. The 'Site key' text box contains '6LeLo20UAAAAADTcemEM0F\_HDPpFYU71t00Cwca' and the 'Secret key' text box contains '6LeLo20UAAAAALyLFkg9FhRdAG22fesK5FJ-4y7i'.

Save a copy of the Site Key and the Secret key.

## Update Your MarketGrabber Settings

Now login to your MarketGrabber Back Office and click on Settings:

The screenshot shows the MarketGrabber Administrative Back Office dashboard. At the top, there is a dark blue header with the MarketGrabber logo, the text 'Classified Ad Software & Marketplace Builder', and the title 'Administrative Back Office'. The date 'Friday, August 31, 2018' and the user 'User: marketgrabber' are also visible. A 'Logout' button is present. Below the header, there is a navigation sidebar on the left with a 'Back Office Home' section containing 'Customers', 'Classifieds', and 'Directory' links. A red arrow points to the 'Settings' gear icon in the navigation bar. The main content area is titled 'MarketGrabber Administrative Back Office' and features two summary cards: 'Customers' with a total of 14, and 'Transactions' with 130 invoices this month.

Click on Site Wide Settings and then Click on Security:

# How to get a Google ReCaptcha Key

The screenshot shows the 'MarketGrabber Settings Wizard' interface. On the left is a sidebar with 'Settings Wizard' and various categories: 'Site Wide Settings' (highlighted), 'General', 'Customer Photos', 'Display Ads', 'Email Server', 'Google AdSense', 'Google Analytics', 'Google Maps', 'RSS Input', 'RSS Output', 'Localization', 'Payment Processing', 'Security' (highlighted with a red arrow), and 'SE Optimizer'. Below these are 'Classifieds Settings', 'Directory Settings', and 'Employment Settings'. The main content area is titled 'Security' and contains instructions for using Google reCaptcha. It includes a red warning text and a blue link to get a key/site secret. Below this is a table with four rows: 'Registration Validation', 'Google reCaptcha Used on Forms', 'Google Recaptcha Site Key', and 'Google Recaptcha Site Secret'. The 'Google reCaptcha Used on Forms' row has a red arrow pointing to the 'Yes' radio button. The 'Google Recaptcha Site Key' row has a red arrow pointing to the input field containing '6LcIiD8UAAAAAB0eXm9K;'. The 'Google Recaptcha Site Secret' row has a red arrow pointing to the input field containing '6LcIiD8UAAAAAGssOEahV'. A 'Save Changes' button is at the bottom.

## MarketGrabber Settings Wizard

### Security

To use Google reCaptcha on your website, you will need to have a Google reCaptcha API Key and Site Secret. You must have a Google account to get a Google reCaptcha API key/site secret. If you do not have a Google account you can get one here: <https://accounts.google.com/signup>

Get Your Google reCaptcha API Key/Site Secret - Use the following link to create a key/site secret and click the Make Changes button below to enter the key and site secret into the boxes below: <https://www.google.com/recaptcha/admin#list>

Registration Validation	<input checked="" type="radio"/> Yes <input type="radio"/> No	Yes means when customers register they will need to click on a link in an email sent to them to confirm or validate their registration. Yes is the recommended setting.
Google reCaptcha Used on Forms	<input checked="" type="radio"/> Yes <input type="radio"/> No	Use Google reCaptcha to help prevent bots from filling out forms on your site.
Google Recaptcha Site Key	<input type="text" value="6LcIiD8UAAAAAB0eXm9K;"/>	Go to Google reCAPTCHA to setup your site to use Captcha. Copy the Site Key generated by Google.
Google Recaptcha Site Secret	<input type="text" value="6LcIiD8UAAAAAGssOEahV"/>	Go to Google reCAPTCHA to setup your site to use Captcha. Copy the Site Secret generated by Google.

[Save Changes](#)

Set the following:

Google reCaptcha Used on Forms - Yes

Google reCaptcha Site Key - enter the site key you saved from Google (see instructions above).

Google reCaptcha Site Secret - enter the site secret you saved from Google (see instructions above).

Save your changes.

Testing - to test your changes - go to your public web site. Then go to the Contact Us link from your site footer.

## How to get a Google ReCaptcha Key

A form such as the following will appear where you can test your contact form to verify your Google reCaptcha:

### Contact Us On-Line

- We will respond to all on-line inquiries no later than 1 business day after you submit your request.

**Name**

**Organization**

**Email**

**Address**

**Phone**

**How can we help you?**
